

# Drill Down PRO Visuals Cheat Sheet

Create reports using a suite of Drill Down visuals to achieve intuitive usability, cross-chart filtering, and interactive drill-downs for data-driven decision-making.

## ZoomCharts Visual for Power BI

**Drill Down Pie PRO**

Shows parts of a whole in a circular format. Use this as a filter for your report.

**Drill Down Donut PRO**

A ring-shaped chart displaying parts of a whole.

For vertical columns:

**Drill Down Combo PRO**

Combine line, area, and column charts for **categorical data**.

For horizontal bars:

**Drill Down Combo Bar PRO**

Accompanies column, area, and line charts for categorical data.

**Drill Down Line PRO**

Create multiple line chart types for categorical data

**Drill Down Waterfall PRO**

Illustrates changes in values over a sequence of categories.

## Chart type that you can build with this visual

(Please note that some of the functionality available in Power BI built-in charts is not available in ZoomCharts visuals and vice versa)

-  Pie chart
-  Pie chart shaped as gauge

-  Donut chart
-  Pie chart shaped as gauge
-  Pie chart

-  Clustered column chart
-  Area chart
-  Stacked area chart
-  Line chart
-  100% stacked column chart
-  Line and stacked column chart
-  Line and clustered column chart
-  Stacked column chart

-  Stacked bar chart
-  ... Various other combinations of line, area, columns/ bar charts

-  Line chart

-  Waterfall chart

**Drill Down Timeline PRO**

Explore time-based data using DAX calculated measures.

**Drill Down TimeSeries PRO**

Explore time-based data down to each millisecond with interactive drilldown and scrolling

**Drill Down Map PRO**

Create map visualization using OpenStreetMap, Azure Maps, Google Maps or others.

**Drill Down Shape Map PRO**

Create simple and effective map charts using built-in shape layers (World, USA, UK, Australia)

**Drill Down Scatter PRO**

Visualizes data relationships, trends, and correlations across categories.

**Drill Down Graph PRO (filter)**

Map and explore relations among data points, identify outliers and discover patterns.

**Drill Down Network PRO**

Explore networks from category-based data

-  Clustered column chart
-  Area chart
-  Stacked area chart
-  Line chart
-  Stacked column chart
-  100% stacked column chart
-  Line and stacked column chart
-  Line and clustered column chart
-  ... Various other combinations of line, area and columns charts (regular, stacked or clustered)

-  Map
-  Filled map
-  ... Other map chart variations

-  Scatter chart

-  ... Graph charts network charts

 **Drill Down PRO (PIN)**  
version supports 'Pin to Dashboard'
